Abstract submission guidelines for RSA Winter Conference 2017

Please note that you must register for the Regional Studies Association Conference in order to submit an abstract. The conference is inclusive, which means that all submitted abstracts will be accepted. The exception to this is if the abstract contains inappropriate content, or falls outside of the topical themes of the conference.

Only one abstract may be submitted per registration. If you would like to present more than one paper, then a second registration must be paid for. Alternatively, a co-author on that paper may register and present.

The submitting author will be considered as the leading and presenting author, unless otherwise stated. If the co-authors are not cited on the paper or when submitting the abstract, then their names will not appear in the conference volume.

The following guidelines set out the acceptable format for abstract submission.

Please note that the abstract submission closing date has been extended to 12th September 2017

Abstracts guidelines:

- 250 words in length;
- Titled
- Text only; no diagrams, graphs, pictures, citations or maps
- All contributing authors must be named, with their country and institution
- Indicate which gateway the paper is being submitted under

The Regional Studies Association reserves the right to reject abstracts that do not conform to the above criteria, or that fall out of the scope of relevant gateway themes, please refer to the call for papers for conference themes.
