A World of Flows - Labour Mobility, Capital and Knowledge in an Age of Global Reversal and Regional Revival

3rd – 6th June 2018, Università della Svizzera Italiana, Lugano, Switzerland

Abstract submission deadline: 23rd February 2018

In January 2017, the editorial of the 50th anniversary issue of *Regional Studies* launched – under the title “Global reversal, regional revival?” – a timely debate about regions and their development in a changing world where global trade and capital flows have been challenged. At the same time, *The Economist* presented evidence of capital flows shifting from foreign direct investments by multinational companies to new and more decentralised strategies such as an increasing focus on the establishment of national franchises, as well as the growing success of SMEs by means of utilizing e-commerce. New models of international business are emerging, and these have evolved in response to changing technologies, political shifts, the territorial awakening of some regions, and changing consumer demands – including calls for a more overt attempt to address sustainability and social justice at the national scale.

In this context, we need to better understand the nature and fabric of a footloose world. We know that transport and communication technologies continue to progress, information is ubiquitous and the data deluge is growing over time, while at the same time economically valuable knowledge continues to be sticky. On the one hand production factors remain highly mobile and this mobility is expressed in ways that are often unexpected, while on the other hand a rise of local culture and awareness, and tendencies towards increasing protectionism and nationalism is clearly observable. Nonetheless, migration pressures remain evident both within firms seeking new labour and amongst individuals seeking out a better life, capital investments continue to be borderless and the world of tourism booms.

The 2018 RSA Annual Conference aims to address processes of global reversal and regional revival, in a world dominated by flows of capital, labor, and knowledge. Further it seeks to understand the political, economic and social factors that initiate change and how these changes are finding new expressions as the world’s political and economic system continues to struggle with low rates of global economic growth, the rise of China as an economic super power, the on-going impacts of recession and austerity, and increasing levels of inequality.

To study and debate these and many other questions, we warmly invite the regional studies/science and connected communities to join us at the 2018 RSA Annual Conference in Lugano, Switzerland.

RESEARCH FUNDING & AWARDS

Regional

Studies

Association

THE GLOBAL FORUM FOR CITY
AND REGIONAL RESEARCH,
DEVELOPMENT AND POLICY

The RSA has allocated financial resources to support its members and offers a range of funding opportunities to suit different career stages. These opportunities provide members with the chance to apply for financial help to support their research, run networking events, receive awards for excellence and help towards the costs of travel to attend non-RSA events and present their work to international audiences.

Early Career Research Grant Scheme (EC)

This award is open to single applicants in their early career (five years maximum between the date shown on the PhD certificate and the application deadline). Applicants must be based within an eligible higher education institution and must be a current, early career member of the RSA and throughout the duration of the grant. Please note that applicants may join the RSA as members at the same time as applying for the grant.

Value: up to £10,000 (c. €11500; \$12,000)

Application deadline (Expression of Interest): May 2018

Membership Research Grant Scheme (MeRSA)

The RSA Membership Research Grants are provided to support a discrete piece of regional studies and/or regional science research. This research funding scheme is intended primarily to provide opportunities for mid-career scholars who have already published in the field of regional studies and or science and who are current Individual members of the RSA. The award has a maximum time span of 18 months and reporting conditions apply.

Value: up to £5,000 (c. €5700; \$6000)

Application deadline (Expression of Interest): May 2018

Fellowship Research Grant Scheme (FeRSA)

This award is open to Fellows of the RSA only. RSA Fellows are members who have been continuous members for a minimum of 5 years and who have also been defined as "active members". This means that they have contributed to the life of the Association through serving on the Board or committees, have spoken at conferences, have applied for funding etc. All applicants are required to set out their dissemination plans not only through academic networks (e.g. conferences and publishing) but also to communities of policy and practice.

Value: up to £7,500 (c. €8500; \$9,000)

Application deadline (Expression of Interest): May 2018

Research Network Grant Scheme

RSA Research Networks are formed by RSA members interested in meeting to examine an issue that responds to the aims and goals of the Association and is of interest and concern to members of the Association as well as non-members. The issue needs not necessarily to have a direct policy focus but the examination would normally lead to policy related conclusions.

Value: up to £10,000 (c. €11500; \$12,000)

Next Application deadlines: September 2018

Policy Expo Grant Scheme

The Association has launched a new policy research initiative for teams to connect their work and wider communities to societal questions and policy needs. The Policy Expos will deliver a short form policy focussed and evidenced book for launch through the Association's membership benefits and wider book sales as well as an OA article in *Regional Studies*, *Regional Science*.

Value: up to £15,000 (c. €17000; \$18,000)

Application deadline: March 2018

Travel Grant

The RSA offers its members up to £500 towards travel costs when attending a non-RSA event. Recipients of the Travel Grant must be members of the Association at the time of the application, at the time of travel and claim. Non-members are encouraged to apply and join the RSA at the same time.

Value: up to £500 (c. €570; \$600)

2017 Application deadlines: 30th November 2017

RSA Awards 2017

Nominations (both self-nominations and third party nominations) of current members are being sought for the following awards in regional studies and related fields, which will be awarded by the RSA Award Committee in 2018.

Nathaniel Lichfield Award - the nominee must have graduated within the year

RSA PhD Student Award - the nominee has to be a registered PhD student who has not yet received their certificate

RSA Routledge Early Career Award - the nominee has to be an early career researcher within five years of the date on their PhD certificate or equivalent

Value: The prizes for each award are: £500 (c. €570; \$600) ; a certificate; up to £200 funds toward travel costs to attend the RSA President's Event.

Application deadline: May 2018

More information on RSA funding and awards is available at www.regionalstudies.org/funding

Yannis Psycharis,

I am very happy and honored that my application for the RSA Membership Research Grant has been successful! This grant will not only enable me to further my research, but also to enhance interaction, networking and collaboration opportunities with the Association and the Regional Studies community.

Donna Carmichael,
University of Birmingham, UK

The RSA Travel Grant provided me with financial support to enable me to attend an international conference in London where I was presenting a paper based on my PhD research into city branding. The conference was attended by delegates and speakers from all over the world, including Asia, Eastern Europe, Western Europe, Africa, North America and Australia. The opportunity to interact with scholars from a vast number of countries was phenomenal, and the contacts I made will be extremely valuable as I progress in my academic career.

Jennifer Clark,
Georgia Institute of Technology, USA

The Regional Studies Association's Research Network grants provide researchers with the opportunity to connect with colleagues across disciplines and countries and build comparative projects that expand the policy impact of our work in regional studies. Our RSA Research Network on Rethinking Manufacturing Policy resulted in a special issue of RSA's Regions as well as numerous other opportunities for publication and dissemination of our work. RSA Research Networks advance the field and move emerging research programs forward in a collaborative, comparative context.
