In today's globalised, knowledge-driven and networked world, regions and cities have assumed heightened significance as the interconnected nodes of economic, social and cultural production, and as sites of new modes of economic governance and policy experimentation. This book series brings together incisive and critically engaged international and interdisciplinary research on this resurgence of regions and cities, and should be of interest to geographers, economists, sociologists, political scientists and cultural scholars, as well as to policy-makers involved in regional and urban development. If you would like to discuss a potential new book for the series, please contact: Joan Fitzgerald – jo.fitzgerald@northeastern.edu – Series Editor-in-Chief, or Kristina Abbotts – kristina.abbotts@tandf.co.uk – Routledge Commissioning Editor
