Reconsidering the Korean Urban Development Experience

Edited by **Se Hoon Park**, Korea Research Institute for Human Settlements, Korea, **Hyun Bang Shin** and **Hyun Soo Kang**, Korea Research Institute for Human Settlements, Korea

*Series: Routledge Advances in Korean Studies*

Korea's urban and regional development experiences are widely regarded as a success story. Korea has improved its urban infrastructure and average living standards dramatically in a short period of time. The national government's technocrat-centered economic development drive, timely setting of rules and regulations, and effective implementation of policy tools, have been key to developing the Model. However, there is a darker side to this story: a weakened civil society, an increasingly marginalized urban poor, and worsened social inequality.
